

TREE DELIVERY

or “How to Save the Paint on Your Car or, Save the Interior,
And in More Than One Household—SAVE THE MARRIAGE!”

If the tree you have going home is a little larger than you counted on and the ol' automobile is lost beneath a bunch of limbs, it is time to take advantage of May-Lan Tree Plantation's delivery service.

All you have to do is tell the folks at the baling area what you are doing so they can go ahead and set your tree aside. Then go to the check-out in The Tree Stand and they will take care of everything else for you.

Your tree will be delivered the same day to the home or business you list on the Delivery Sheet.

Our delivery folks will **carry NO money**, so you should plan to pay for everything prior to leaving the farm. **Cost for delivery** is \$20 plus \$ 2.00 per mile one way. This is determined by Google Maps, shortest way.

Now there are a few things that **we do not allow our folks to do:**

- (1) They will ***NOT attach the tree to a stand,***
- (2) They ***absolutely*** will ***NOT bring the tree in the house -regardless*** of size.
- (3) Delivery personnel ***are NOT to go inside anyone's home for ANY reason.***

Your tree will be kept in a shady spot until time to go home and the base will remain in water as well. During transport, it will be covered with shade cloth to protect it from sun and wind.

See our staff if you have any questions

MERRY CHRISTMAS!
